

CHAMPAGNE

About Champagne

Dj champagne is the enchanter of deep, infectious dance grooves and a fun-sophisticated-sexy atmosphere. Dj champagne has established herself as one of the most sought out female djs in the bay area. She has played her signature fusion of hip hop, r&b, dance, funk, soul, and pop in many of the hot bay area clubs and other cities like san jose, los angeles and new york. Champagne grew up in Hayward, CA as the oldest of three. She attended san jose state university and her love and enthusiasm for the art of djing started during her first semester. She bought her first pair of turntables at the age of 18 while being a radio personality on campus. After dominating the air waves she extended her love of djing beyond radio and into the club scenes, conferences for name brands, workshops, festivals and countless private events.

For over a decade champagne has captivated the hearts of others through her musical skills and dynamic, charismatic personality. Acclaimed for not only her dj skills, but also an award winning actress, producer, manager and mc/host, dj champagne continues to educate and inform others that not only are female djs beautiful via spirit but talented within and knowledgeable about the art of DJing.
